Dear Patient

NHS No:

### **PRACTICE LIST DISPERSAL FOR HUMBERVIEW SURGERY**

We are contacting you as a patient at Humberview Surgery to inform you about some changes to your GP registration. Pelham Medical Group have provided medical care at Stirling Medical Centre for a number of years, but as their current GP contract comes to an end this year, they have decided not to continue at Humberview.

Over the past few weeks, North East Lincolnshire Health and Care have explored the possible options to find a solution to continue to provide safe patient services for the Humberview patients. The final decision was recently made to undertake a list dispersal, which means that the practice will close permanently on 30<sup>th</sup> September 2022.

This is not a decision that has been taken lightly, and our priority continues to be the safety of our patients and to ensure that you can continue to access local healthcare services when needed.

This means that you will need to register with another GP Practice in your area as soon as possible. You always have a choice about which practice you are registered with. Details of how to register with a GP practice can be found on the NHS Choices website, along with the list of local practices. - <https://www.nhs.uk/nhs-services/gps/how-to-register-with-a-gp-surgery/>. Also, we have included a list on the reverse of this letter. All GP practices have a practice area/boundary that they cover, and they will be able to confirm if this includes your address when you seek to reregister.

Further details can also be found on the Pelham Medical Group's website, <https://www.pelhammedicalgroup.nhs.uk>.

If you require any assistance with finding a new GP Practice, please contact the Customer Care Team on 0300 3000 500 or email [hnyicb-nel.askus@nhs.net](mailto:hnyicb-nel.askus@nhs.net)

**Yours sincerely**

*Sarah Dawson*
